**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

My IP is always close and available.

It is never good to endorse a monopoly. It makes the entire nations vulnerable to breakdowns and attack.

We already pay enough for Internet. Prices are going up everywhere for everything.

Broadband is critical to my home because we have people living together using the service. We also have people using it for work and projects to develop more work or serve community.

I have tried other IP providers with DSL, or DISH. I prefer my present IP that's LOCAL.

I have the BEST LAND SERVICE EVER for several reasons including free international calls for 8 hours a month.

I live in a rural community and as you know to be a part of international communication broadband maintained by LOCAL access is sought after.
